MARINE ENGINEERING

INDEX TO VOLUME XXII

JANUARY TO DECEMBER, 1917

Note—Illustrated articles are marked with an (*) asterisk.

ARTICLES

Accidents, shipbuilding 362, 430
Advisory committee on naval architecture formed by shipbuilders at Massachusetts Institute of Technology *212
Air port, why is an?..... 55
Alloy industry, non-ferrous. Corse..... 182
American coastwise ships, development of. 149
American emergency fleet 467
American oil tankers, development of. Morrison 105, 157
American merchant marine..... 467
American merchant marine must be unhampered. Thomas 525
American merchant marine statistics..... 115
American seafaring men, call to..... *291
American shipbuilding 37, 115, 323
American shipbuilding, future of. Johnson 289
American shipbuilding, merchant 242
American shipbuilding, present position and prospects of. Powell 87
American shipping requisition 517
Ames Shipbuilding & Dry Dock Co.-Dohm *227
Analysis of principles of industrial management. Roberts 557
Annual meeting, Institution of Naval Architects 221
Annual meeting, Society of Naval Architects 488
Apertures, side, closing from the bridge. Benvenuti *454
Apparatus for interpreting stability. Graham *432
Application of electricity to auxiliaries. Hibbard 555
Arizona, saving in construction of..... 27
Astoria steamship terminal. Newell.... *60
Auxiliary ketch Uvira *493
Auxiliary machinery, engine room and fireroom *140
Auxiliary schooner Jose Juan Domine... *91
Auxiliary schooner, wooden *257
Auxiliary schooners building in New Brunswick *485
Auxiliaries, changes and advances in. Forbes 139
Auxiliaries, deck. Smith..... 166

Balance of propellers, effect of on vibration of ships. King Salter *403
Balance weights for reciprocating engines. *541
Barge canal, New York, opening of..... 196
Barge design involving bridge trusses with reinforced concrete shell *435
Baltimore & Ohio coaling pier..... *222
Batteries, main, of U. S. S. Pennsylvania. *564
Battleship Arizona, saving in construction of 27
Battleship design, technical and military considerations of. Gatewood 16
Battleship Mississippi, launching of..... 81
Battleship New Mexico, launch of..... *211
Beaumont marine terminal *466
Benjamin Brewster, Standard Oil tanker. *482
Bethlehem Steel shipyards 515
Boilers, staying flat surface of..... *440
Boilers for United States emergency wooden steamships *452
Boom, mast and rigging design. Ruprecht *99
British shipyard and repair plant in China *92
British standardized cargo ship, first.... *514
Bulk oil steamship Wm. G. Warden..... *249
Bulkhead and load line committee, report of 84
Bulkhead construction, data for. Ruprecht *309
Burmeister & Wain, Diesel engines building at Cramps *93

Call to American seafaring men *291
Camber, why is? *219
Canadian reinforced concrete ships..... *496
Canal, Lake Washington, formally opened. *417
Canal, New York barge, opening of..... 196
Cargo boats, standards of machinery for. Morison 253
Cargo ship, first British standardized.... *514
Cargo ship lines of simple form. McIntee 555
Cargo ship, problem of the wooden. Donnelly *206
Cargo ships, emergency fleet of wooden. 203
Cargo steamer, 5,500 tons, composite.... *384
Cast steel ships. Hill *435
Changes and advances in marine auxiliaries. Forbes 139
Chart for staying flat surface of boilers. Menzies *440
Chart giving thermal efficiency of the ideal steam engine (Rankine Cycle). Everett and Gross *259
Chart, marine engine. Addison *262
China, British shipyard in..... *92
City of Tampa, unique method of launching *350
Classification and registry of ships. Taylor 159
Classification, why is ship?..... 185
Closing of side apertures from the bridge. Benvenuti *454
Crane for United States Navy, giant.... *487
Coaling pier, Baltimore & Ohio..... *222
Coast and Geodetic Survey steamer Surveyor *420
Coast Guard, United States 25
Coastwise ships, American 149
Collier Maumee, towing of..... *49
Collier Neptune, wind and fouling resistance on. Smith 554
Compact propelling machinery arrangements *265
Composite cargo steamer, 5,500 tons..... *334
Composite ship construction. Carr *360
Concrete, ferro, vessels 303
Concrete for shipbuilding, reinforced. Hoar *300
Concrete in ship construction, reinforced. Weber 2
Concrete shipbuilding, reinforced *368
Concrete ship, 5,000-ton 422
Concrete ships, Canadian reinforced..... *496
Concrete shipways at Fore River..... *221
Concrete ship, why is a?..... 442
Concrete vessels, ferro *493
Condenser tubes, corrosion of..... 299
Construction, data for bulkhead. Ruprecht *309
Construction, naval war 515
Construction of battleship Arizona, saving in 27
Construction, reinforced concrete in ship. Weber 2
Construction, tank steamer, recent development in. Morrell 554
Contracts, shipbuilding....37, 38, 77, 115, 116 193, 194, 235, 236, 278, 323, 326, 370, 372 419, 420, 467, 468, 516, 518, 565, 567
Control of fire in marine properties. Hoagland 163
Convention, National, foreign trade..... 81
Cooling of magazine by ventilation. Crosby 436
Co-operative management. Johnson 428
CO_2 recorder, mono, marine *66
Correspondence instruction among seafaring men. Roden 173
Corrosion of condenser tubes 299
Cost of towing on Western rivers. von Pagenhardt *384
Danger zones, protection of ships in.... 484
Data for bulkhead construction. Ruprecht *309
Data on shipbuilding, filing. Roscher.... 84
Deck auxiliaries, development of. Smith. 166
Design, barge, involving bridge trusses with reinforced concrete shell..... *435
Design, mast, boom and rigging. Ruprecht *99
Design, technical and military considerations of battleship. Gatewood..... 16
Destroyer fleet, United States..... 417
Development, motorship. Wilson *132
Development, American coastwise ships.. 149
Development, American oil tankers. Morrison 105, 157
Development, deck auxiliaries. Smith... 166
Development, machinery in United States Navy. Dyson 498, 545
Development, screw propulsion. Dyson.. 131
Development, twist drill 183
Device for comparing rotation of shafts. Suyehiro 555
Diesel engine building at Cramps..... *93
Diesel engine installation, largest American 244
Diesel engine, one hundred horsepower.. *407
Diesel engine, relative failure of..... 261
Diesel engine, Werkspoor 19
Diesel tanker overhauled at Newport News 40
Direct reversible marine oil engine..... *596
Donnelly design wooden ship *206
Door, why is a *27
Douglas fir (Oregon pine) shipbuilding. Oakleaf *213

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

Draftsmen, ship, why is a?..... 266
Drill, twist, development of 183
Dredging machinery, recent progress. Brown 137
Dry dock development *170
Dry docking, extraordinary feat of..... *448
Drydock, salvage of floating. Delacroix. 382
Duties of newly trained marine engineers. Willey 502, 542

Economy and power tests of S. S. Pontiac. Mattsson and Durkin..... 555
Education of marine engineers. Haig... 553
Edward Luckenbach, freight steamer.... *7
Efficiency, thermal, of ideal steam engine. *259
El Almirante, steamship *538
El Capitan, steamship *538
Electric drive for battleships Colorado and Washington 235
Electricity, application of to auxiliaries. Hibbard 555
Electric, oxy-acetylene or other processes, welding and reinforcing by the 439
Emergency fleet 467
Emergency fleet composite cargo steamer *334
Emergency fleet wooden cargo ships..... 203
Emergency fleet standard steel steamship. *355
Emergency fleet, standard wooden ships for *294
Emergency fleet, watertube boilers..... *452
Engine and Boat Manufacturers' Association, officers of 196
Engineering, marine, progress of. Haig. 553
Engineering, trend in marine. Bruce... 489
Engineers, marine, duties. Willey...502, 542
Engine room and fireroom auxiliary machinery *140
Engines for cargo boats, standard specification 135
Engine, Werkspoor marine Diesel..... 19
Enlarging lake-built vessels. McAleer.. *540
Experiments on influence of running balance of propellers on vibration of ships. King-Salter *403
Experiments upon wake and thrust deduction. Luke *400
Extraordinary feat of dry docking..... *448

Fabricated shipbuilding plant..... 517
Fabricated ships *549
Fabricated steel shipyard *551
Federal Shipbuilding Company..... 418
Feed water heaters, open vs. closed. Lovekin 123
Ferro-concrete vessels 303, *493
Fitting data on shipbuilding. Roscher.... 84
Fire in marine properties, control of. Hoagland 163
Fireroom and engine room auxiliary machinery *140
First British standardized cargo ship..... *514
Flag, Shipping Board's new..... *418
Fleet of wooden cargo ships, emergency.. 203
Floating crane for United States Navy.. *487
Floating drydock, salvage of. Delacroix. 382
Floating frame type reduction gears. Macalpine *259, 333
Forced lubrication for turbines..... 146
Foreign trade convention 81
Fouling and wind resistance on the Neptune. Smith 554
Foundation, gun, why is a?..... 504
Freight steamer Edward Luckenbach..... *7
Freight steamer, new design. Karr..... *338
Freight steamers, Southern Pacific..... *538
Freight steamship, standard for Shipping Board emergency fleet *355
Further experiments upon wake and thrust deduction. Luke *400
Future of American shipbuilding. Johnson 289

Geared turbine freighter Edward Luckenbach *7
Geared turbine passenger steamship Maui. *151
Geared turbines for cargo and passenger steamships, standardized *255
Gear, reduction in motor tug *492
Gears, reduction of floating frame type. Macalpine *259, 333
Giant crane for United States Navy..... *487
Government plant for building fabricated ships 517
Government shipbuilding plans 417
Government shipyard on Newark Bay... *551
Government shipyards, contracts for.... 467
Government shipbuilding programme..... 369
Gulf States, shipyards. Crowell..... 553
Gun foundation, why is a?..... 504
Gyroscope in marine field. Stringham... 409
Gyro ship stabilizers in service. Sperry. 558

Hawsers and lines, towing suggestions... *172
Heaters, feed water, open versus closed. Lovekin 123
Heine boilers for emergency fleet..... 252
Herreshoff Manufacturing Company, reorganized 324
Hong-Kong and Whampoa Dock Company *92
Hough type wooden steamship *380
House-boat Vagabond, motor *7
Houston, marine terminal *314
Hulls, submarine. Land 556

Improvements in engine room and fireroom auxiliaries *140
Improving purchasing methods. Twyford. 398
In busy times 440
Increased duties of Steamboat Inspection Service 5
Indicated horsepower for steamships. De Russett 311
Industrial management, analysis of principles. Roberts 557
Influence of war on submarine policy. Hay 557
Inspection rule for licenses modified..... 290
Inspection Service, increased duties of.. 5
Institution of Naval Architects, annual meeting 221
Insulation, refrigerator. Williams *44
Inter-imperial ship lines proposed..... 244

J. F. Duthie & Co., shipyard..... *305
Jose Juan Domine, auxiliary schooner... *91
Julia Luckenbach, launching of..... 80

Ketch, auxiliary, Uvira *493

La Brea, oil tank steamer. Frear..... *63
Labor recruiting *525
Lake-built vessels, enlarging. McAleer... *540
Lake Washington canal formally opened. *417
Large fleet of motor boats for coast defense recommended 148
Large motorship building at Cramp's.... *93
Largest American Diesel engine installation 244
Launching, method of, unique *350
Launching, novel, of reinforced concrete motorship *536
Launching of battleship Mississippi..... 81
Launching of S. S. Julia Luckenbach.... 80
Lehigh University, shipbuilding instruction at 375
Lifeboats, motor, new type..... *459
Life-saving equipment, recent developments *172
Lightening hole, why is a?..... 97
Lighting for ships and shipyards. Dennington 163
Lighting, steamship. Sealy 162
Lines of simple form, cargo ship. McIntee 555
Load line and bulkhead committee, report of 84
Lubrication of propeller tail shafts. McNab 54
Lubrication for marine turbines, forced. 146
Lubrication, marine. Parish 147
Lubrication, progress in marine. Paterson 148

Machinery arrangements for cargo boats.. *265
Machinery, development of in U. S. Navy. Dyson 498
Machinery for cargo boats, standarization. Morrison 253
Machinery, improvements in engine room auxiliary *140
Machinery, progress in dredging. Brown. 137
Machine shop equipment, marine. Forbes. 179
Maiden voyage of motorship S. I. Allard. *395
Management, co-operative. Johnson..... 428
Manning of future merchant fleets..... 430
Management, industrial, analysis of principles of. Roberts 557
Marine applications of reduction gears. Macalpine 259
Marine auxiliaries, changes in. Forbes.. 139
Marine Diesel engine, Werkspoor..... 19
Marine engine chart. Addison..... *262
Marine engineering at naval academy. Van de Water 145
Marine engineering, review of progress. Donnelly 129
Marine engineering, trend in. Bruce.... 489
Marine engineers, duties of. Willey..502, 542
Marine engineers, education of. Haig.. 553
Marine machine shop equipment. Forbes. 179
Marine salvage operations 169
Marine terminal at Beaumont..... *466
Marine terminal improvements at Houston *314
Marine terminals, shed capacity at. McL. Harding 387
Maritime Congress proposed 230
Mast, boom and rigging design. Ruprecht. *99
Maumee, towing of. Stanley..... *49
Maui, geared turbine passenger steamship. *151
Merchant fleets, manning of..... 430
Merchant marine, American..... 467
Merchant marine, Maritime Congress proposed to aid 230
Merchant marine must be unhampered. Thomas 525
Merchant marine statistics 115
Merchant marine, revival of. Baldwin.. 126
Merchant marine, training officers for.... *530
Merchant shipbuilding, effect of war on. Ferguson 532
Merchant shipbuilding, United States.... 242
Merchant vessels of United States..... 118
Method for safe transportation to Europe. 359
Mission of gyroscope. Stringham..... 409
Mississippi, launching of 81
Method of finding the indicated horsepower. De Russett 311
Military and technical considerations of battleship design. Gatewood..... 16
Model experiments, straight-lined ship. Albert Ed. Saunders *341
Mold loft notes. Cohee *389
Mono marine CO_2 recorder *66
Motorboats for coast defense recommended 148
Motor house-boat Vagabondia..... *7
Motor lifeboats, new type U. S. Coast Guard *459
Motorship building at Cramp's *93
Motorship development. Wilson *132
Motorship for West India trade, wooden. *217
Motorship S. I. Allard, maiden voyage of. *395
Motorships, reliability of 79
Motorship State of Oregon, wooden. Brintnall *95
Motor tug with reduction gear *492

National Chamber of Commerce stimulating recruiting of shipyard labor..... *525
National Shipbuilders' Association..... 422
Nautical schoolship established, Washington 196
Nautical schoolships, state *269
Naval Academy, marine engineering at. Van de Water 145
Naval appraisal board 235
Naval Architects' annual meeting.....488, 552
Naval architecture, science of. Taylor.. 478
Naval machinery, development of. Dyson 498, 545
Naval programme, 1918 2
Naval war construction 515
Neptune, wind and fouling resistance on. Smith 554
Newark Bay, Government shipyard..... *551
New design of freight steamer. Karr... *338
New Mexico, launching of *211
New Southern Pacific freighters..... *538
New York and New Jersey port development 470
New York barge canal, opening of..... 196

Generated on 2024-08-12 19:52 GMT / https://hdl.handle.net/2027/mdp.39015080010682

Original from UNIVERSITY OF MICHIGAN

Newport News yard, work at..... *103
New York Waterways Association meets. 471
Non-ferrous alloy industry. Corse..... 182
Non-sinkable ship proposed *339
Notes, mold loft. Cohee *389
Notes on rudders. Petersen *445

Officers for the merchant marine, training of *530
Oil engine, direct reversible..... *506
Oil steamship William G. Warden..... *249
Oil tanker Benjamin Brewster..... *482
Oil tankers, development of American. Morrison 105, 157
Oil tank steamer La Brea. Frear..... *63
Open vs. closed feed water heaters. Lovekin 123
Orders to shipping to increase safety in war zones 245
Output of world's shipyards..... 420
Oxy-acetylene and oxy-hydrogen welding and cutting *182
Oxy-acetylene, electric or other processes, welding and reinforcing by..... 439

Pen, why is a?..... *316
Pennsylvania, main batteries of *564
Pier, new Baltimore & Ohio coaling..... *222
Pine, use of Southern yellow in shipbuilding. Powers 45
Pipe threading. Ashmun *181
Pneumatic tools for shipyards..... 507
Pneumercator, the *155
Pontiac, power and economy tests of. Mattsson and Durkin 555
Port development commissions 470
Port of Astoria terminal. Newell..... *60
Port, Yonkers, to be developed..... 287
Power and economy tests of S. S. Pontiac. Mattsson and Durkin 555
Preliminary marine improvements at Houston *314
Preliminary report of bulkhead and load line committee 84
Present position and prospects of American shipbuilding. Powell 87
Present steamship lighting. Sealey..... 162
President's address, Naval Architects' meeting 552
Problem of wooden cargo ship. Donnelly. *206
Programme, annual meeting, Society of Naval Architects 488
Programme, naval, 1918..... 2
Progress in marine lubrication. Paterson. 148
Progress in the non-ferrous alloy industry. Corse *182
Progress of marine engineering. Haig.. 553
Progress of refrigeration. Harrison..... *164
Propeller tail shafts, lubrication of. McNab 54
Propellers, influence of running balance on vibration of ships. King-Salter.... *403
Propelling machinery for medium size cargo boats *265
Proposed method for safe transportation to Europe 359
Propulsion, screw, development of. Dyson 131
Protection of propeller tail shafts. McNab 54
Protection of ships in danger zones..... 484
Puget Sound shipbuilding..... 30
Purchasing methods, improving. Twyford 398
Pushing and speed tests of river towboats. von Pagenhardt *57
Quay terminals for inland barges and ocean freighters. Harding 343

Recent developments in life-saving equipment *172
Recent developments in tank steamer construction. Morrell 554
Recent progress in dredging machinery. Brown 137
Reciprocating engines, balance weights for *541
Recorder, mono marine CO_2 ..... *66
Recruiting shipyard labor *525
Reduction gear in motor tug..... *492
Reduction gears of floating frame type. Macalpine *259, 333
Refrigerating plants for ships' stores.... *23
Refrigeration and refrigerator insulation. Williams *44
Refrigeration, progress of. Harrison.... *164
Registry and classification of ships. Taylor 159
Regulations for the protection of ships in danger zones 484
Reinforced concrete in ship construction. Weber 2
Reinforced concrete for shipbuilding. Hoar *300
Reinforced concrete motorship launched bottom upwards *536
Reinforced concrete shipbuilding *368
Reinforced concrete ships, Canadian..... *496
Relative failure of Diesel engine..... 261
Reliability of motorships 79
Report of bulkhead and load line committee 84
Requisition of American shipping..... 517
Resistance of ships, wind. Ober..... *218
Resistance, wind and fouling on Neptune. Smith 554
Reversible oil engine..... *506
Review of the progress of marine engineering. Donnelly 1
Revival of merchant marine. Baldwin... 126
Rigging, mast and boom design. Ruprecht 99
Rivets in shipbuilding, part played by. Champion 161
Rivet, why is a?..... 337
River steamboating. "Old Scotch"..... .
River towboats, pushing and speed tests. von Pagenhardt *57
Rolling of ships. Liddell .....
Rotation of shafts, device for comparing. Suyehiro 555
Rudders, notes on. Petersen *445
Running balance of propellers on the vibration of ships, experiments on the influence of. King-Salter *403

Safety of shipping in war zone..... 245
Salvage of floating dry dock. Delacroix.. *382
Salvage operations, marine 169
Salvaging the Sesostris. Dohm *345
Salvaging the submarine H-3..... *396
Saving in construction of battleship Arizona 27
Schoolship, nautical, Washington 196
Schoolship, state nautical *269
Schooner Jose Juan Domine, auxiliary... *91
Schooners building in New Brunswick... *485
Schooner, wooden auxiliary..... *257
Science of naval architecture. Taylor... 478
Screw propulsion, development of. Dyson 131
Seafaring men, call to American..... *291
Selected marine patents.....*42, 82, 120, 200 240, 284, 328, 376, 424, 474, 520, 570
Service department of a shipyard. Wakeman 553
Sesostris, salvaging the. Dohm..... *345
Shafts, rotation of, device for comparing. Suyehiro 555
Shallow-draft, tunnel stern motor houseboat *14
Shed and warehouse terminal. McL. Harding *175, 225
Shed capacity at terminals. McL. Harding 387
Shipbuilders' training center established. 527
Shipbuilding accidents 362, 430
Shipbuilding, American 37, 115
Shipbuilding and general marine news. 37, 75, 115, 193, 234, 277, 323, 369, 417, 466 515, 565
Shipbuilding contracts....37, 38, 77, 115, 116 193, 194, 235, 236, 278, 323, 326, 370, 372 419, 420, 467, 468, 516, 518, 565, 567
Shipbuilding contracts, Shipping Board... 323
Shipbuilding, Douglas fir. Oakleaf *213
Shipbuilding, future of American. Johnson 289
Shipbuilding in Gulf States. Crowell... 553
Shipbuilding, United States, in 1916.... 28
Shipbuilding, United States, merchant... 242
Shipbuilding, Puget Sound 30
Shipbuilding plans of Shipping Board.... 417
Shipbuilding, present position and prospects of American. Powell 87
Shipbuilding programme, Shipping Board. 369
Shipbuilding, reinforced concrete. Hoar. *300
Shipbuilding, war's effect on. Ferguson. 532
Shipbuilders' Association, National..... 422
Shipbuilders' committee on naval architecture 212
Ship classification and registry. Taylor. 159
Ship classification, why is?..... 185
Ship construction, reinforced concrete. Weber 2
Ship construction, special composite. Carr *360
Ship draftsman, why is a?..... 266
Ship lines of simple form. McIntee..... 555
Ship model experiments, straight-lined. Albert Ed. Saunders *341
Shipping, American, requisition of..... 517
Shipping Board composite cargo steamer. *334
Shipping Board contracts..... 323
Shipping Board Emergency Fleet..... *294
Shipping Board fabricated shipbuilding plant 517
Shipping Board shipbuilding plans..... 417
Shipping Board standard steel steamship. *355
Shipping Board watertube boilers..... *452
Shipping Board wooden steamship, Hough type *380
Shipping Board's new flag..... *418
Shipping Committee to advise United States Shipping Board 235
Shipping, orders to increase safety in war zones 245
Shipping, reinforced concrete *368
Shipping to Latin America. Bolles..... 127
Ship, problem of wooden cargo. Donnelly *206
Ship proposed, non-sinkable..... *339
Ships, Canadian reinforced concrete..... *496
Ships, cast steel. Hill *435
Ships, emergency fleet of wooden cargo.. 203
Ships, fabricated. Robinson *549
Ships, solving the problem of the. Baldwin 248
Ships' windlasses *166
Ships' winches *167
Shipways, concrete, at Fore River..... *221
Shipyard, Ames Shipbuilding & Dry Dock Company *227
Shipyard and repair plant in China, British *92
Shipyard labor, recruiting of..... *525
Shipyard, Federal Shipbuilding Co..... 418
Shipyard, J. F. Duthie & Co..... *305
Shipyard lighting. Dennington 163
Shipyard, Newark Bay..... *551
Shipyard news.....37, 38, 77, 115, 116, 193 194, 235, 236, 278, 323, 326, 370, 372, 419 420, 467, 468, 516, 518, 567
Shipyard, output of world's..... 420
Shipyard, service department of. Wakeman 553
Shipyard, Standard Shipbuilding Corporation *21
Shipyards, Bethlehem Steel 515
Shipyards, contracts for Government.... 467
Shooter's Island shipyard..... *21
S. I. Allard, maiden voyage of..... *395
Side apertures, closing from the bridge. Benvenuti *454
Society Naval Architects and Marine Engineers 488, 552
Solving the problem of the ships. Baldwin 248
Southern Pacific freighters, new..... *538
Southern yellow pine, use of..... 45
Special composite ship construction. Carr *360
Specification for triple-expansion engines, standard 135
Speed and pushing tests of river towboats. von Pagenhardt *57
Stability, apparatus for interpreting. Graham *432
Stabilizers, gyro ship. Sperry..... 558
Straight-lined ship model experiments. Albert Ed. Saunders *341
Standardization as applied to the machinery. Morison 253
Standardized cargo ship, first British.... *514

Standardized geared turbines..... *255
Standard Oil tanker Benjamin Brewster. *482
Standard Shipbuilding Corporation..... *21
Standard steel steamship for U. S. Shipping Board *355
Standard specification for triple-expansion engines 135
Standard watertube boilers for emergency fleet *452
Standard wooden steamships for Shipping Board *294
State nautical schoolships *269
State of Oregon, wooden motorship. Brintnall *95
Staying flat surface of boilers..... *440
Steamboating, Western river. "Old Scotch" 45
Steamboat-inspection rules amended..290, 444
Steamboat Inspection Service, increased duties of 5
Steamer Edward Luckenbach, freight.... *7
Steamer La Brea, oil tank. Frear..... *63
Steamer Maple, wooden 468
Steamer, new design of freight. Karr.... *338

"Dry Back" Scotch boiler ... 367

Effect of change to valve gear ... 36
Efficiency and fuel consumption of small gasoline (petrol) engines ... 35
Efficiency as basis for comparison of steam engine performance ... 234
Efficiency of engines, relative ... 512
Efficiency of steam engine ... 275
Engine room, net tonnage of ... 36
Engines, mechanical efficiency and fuel consumption of small gasoline (petrol). 35
Engler scale of viscosity of oil ... 465
Evaporator ... *562
Evaporator, effect of superheat in ... 234
Evaporators, steam consumption of ... 114
Excess pressures in boilers, relieving ... 321

Feed pumps, calculations for capacity of. 114
Formula for critical speed of De Laval turbine ... 75
Fuel consumption and economy efficiency of small gasoline (petrol) engines ... 35
Gasoline (petrol) engine cylinders, tests for ... 465
Gear reduction on U. S. S. Neptune, ratio of ... 465
Gears, chain of, power delivered by ... *192

Heat transfer in oil cooler ... *322
Horsepower, boiler ... 321
Horsepower, constants for ... 322
Horsepower, indicated vs. brake ... 233
How to work up data from Peabody throttling calorimeter ... *275
Hydraulic punch, calculations for ... *35

Indicated vs. brake horsepower ... 233
Indicator card, cut-off on ... *464
Indicator cards, analysis of ... *113, 414, 513
Iron, can it be gasified? ... 513

Ljungstrom steam turbine ... 465
Lubricating oils ... 36

Mean effective pressure referred to low pressure cylinder of triple-expansion engine ... 465
Mechanical efficiency and fuel consumption of small gasoline (petrol) engines. 35
Metacenter ... 465
Motor boat, propeller dimensions of ... 233
Movement of valve due to movement of eccentric ... 415
Multiple-expansion engines, receiver pressures in ... 321

Net tonnage of engine room ... 36
Number of stays for boiler head ... 192

Oil cooler, heat transfer in ... *322
Oil, Engler scale of viscosity ... 465
Oils, lubricating ... 36

Passes in surface condensers ... 234
Peabody throttling calorimeter, how to work up data from ... *275
Pitch of rivets in boiler ... 189
Pitting, strength of boiler after ... 512
Plating, shell, strakes of ... 189
Power and revolutions of propelling engines on dock trials ... 513
Power delivery of chain of gears ... *192
Precautions for marine engineers ... 563
Propeller for motor boat, dimensions of .. 233
Propeller problem ... 36
Propeller shafting at strut bearings, reactions of ... *276
Propeller wheels, annealing of welded bronze ... 321
"Proximate" and "Ultimate" coal analyses ... 114
Pumps, boiler feed, calculations for capacity of ... 114
Pumps, steam consumption of ... 275
Punch, calculations for ... *35

Range finding ... *464
Ratio of gear reduction on U. S. S. Neptune ... 465
Reactions of propeller shafting at strut bearings ... *276
Receiver pressures in compound or triple-expansnon marine engines ... 321
Receiver pressures in triple-expansion engine ... 233
Reinforced concrete ships ... 465
Relative efficiency of engines ... 512
Relieving excess pressure in boilers ... 321
Rivets in boiler, size and pitch of ... 189

Safety valve for air compressor, size of. 75
Safe working pressure of boiler ... 114
Salinometer ... 563
Salt, degree at which it deposits ... 563
Scale, Beaumé ... 36
Scale of viscosity of oil, Engler ... 465
Scotch boiler ... *562
Scotch boiler, dryback ... *367
Searchlight, Sperry ... 465
Segment of boiler head, area of ... *415
Separators ... *563
Setting valves of triple-expansion engine to get least vibration ... 75
Shafting, propeller, reactions of on strut bearings ... *276
Shafting, torsional vibration in ... 465
Shell plating, strakes of ... 189
Size and pitch of rivets in boiler ... 189
Size of safety valve for air compressor .. 75
Specific heat of water ... 36
Sperry searchlight ... 465
Stays for boiler head, number of ... 192
Steam consumption of evaporators ... 114
Steam consumption of marine pumps ... *275
Steam, determination of superheat in ... 234
Steam engine, efficiency of ... 275
Steam turbine, Ljungstrom ... 465
Steam turbines and Diesel engines ... 367
Strakes of shell plating ... 189
Strength of boiler after pitting ... 512
Superheat in first effect of double-effect evaporator ... 234
Superheat in steam, determination of ... 234
Surface condensers, passes in ... 234

Tests for gasoline (petrol) engine cylinders ... 465
Text-books on thermodynamics ... 367
Thermodynamics, text-books on ... 367
Thrust deduction and wake gain ... 189
Tonnage, net, of engine room ... 36
Torsional vibration in shafting ... 465
Trials, dock, power of engines on ... 513
Triple-expansion engine, analysis of indicator cards from ... *113
Triple-expansion engine, cylinder proportions in ... 233
Triple-expansion engine, receiver pressures in ... 233
Triple-expansion engine, setting valves of to minimize vibration ... 75
Throttling calorimeter, Peabody ... *275
Turbine, formula for, critical speed of ... 75
Turbine, Ljungstrom ... 465
Turbines and Diesel engines ... 367

Valve bodies, cast steel, defects in ... 464
Valve gear, effect of change to ... 36
Valve movement, due to movement of eccentric ... 415
Valves, triple-expansion engine, setting of to get least vibration ... 75
Vibration in shafting, torsional ... 465
Vibration, triple-expansion engine, setvalves to minimize ... 75
Viscosity of oil, Engler scale for ... 465

Wake gain and thrust deduction ... 189
Water, specific heat of ... 36
Wear on crosshead and crank pin brasses. 233
Welded bronze propeller wheels, annealing of ... 321
Willans line, what is the? ... *367
Working pressure of boiler, safe ... 114
